Galaxy Cushion

Model Number	Size (WIDTH × DEPTH)
EFFSCGXY16162	16" × 16"
EFFSCGXY18162	18" × 16"
EFFSCGXY18182	18" × 18"
EFFSCGXY20162	20" × 16"
EFFSCGXY20182	20" × 18"

- Combines multi-cellular air technology with a patented, contouring design, fitting the anatomical form
- Pelvis supports gently abducts the trochanters, creating a hydrostatic environment around the sitting tissues
- Abductors gently push femurs to the midline of the cushion
- Voided areas in the coccyx and perineum regions to keep excess pressures away from problematic areas
- Posterior sloped air cells prevent forward migration
- Built-in pommel for abduction of the knees to work in concert with the femur troughs
- Femur troughs are sculpted to help position the thighs in a medial-lateral placement

Dual Valve
