quick-release wheels

swing-away removable standard  
or elevating legrests/calf pads

## Product Description

HCPC K0004

The FreeLander™ Hemi deluxe wheelchair is lightweight and “fully loaded” with the most commonly requested accessories. With a lower seat-to-floor height than the FreeLander™ Standard wheelchair, this chair is often recommended by clinicians for individuals of a shorter stature and those needing to incorporate a wheelchair cushion into the seating needs for the average height individual. The FreeLander™ Hemi comes standard with: anti-tippers, swing-back adjustable height armrests, adjustable height back, non-tearing arm pads, and quick-release wheels. Comes standard with your choice of standard swing-away or elevating legrests that are compatible with other FreeLander™ wheelchairs. Additional full-length armrests available.
