Sanosphere™

Sanosphere™ is a revolutionary technology that performs like air or gel cushions with no maintenance.

Sanosphere's dual hemispheres compress under an individual's weight and distribute pressure evenly throughout the seating area. Hemisphere diameters are different sizes to properly support and envelop the coccyx and ischial tuberosity regions, decreasing pressure to those areas most susceptible to pressure ulcers.

Sanosphere™ technology provides high-performance pressure redistribution with no maintenance required.

Sanosphere™ Hemi-Air Zones

● Coccyx Flotation Zone

● Ischial Flotation Zone

● Lateral Stability Zone

● Leg Stability Zone

● Central Stability Zone

Product Descriptions

HCPC E2603

The Elite cushion utilizes Sanosphere™ Technology (combination of visco-elastic memory foam and Skydex™), that envelops bony prominences, providing ultimate comfort and pressure redistribution. The design is ideal for individuals with or at high risk for skin breakdown for up to wound stage IV. The Elite is lower in profile than the Elite Contour Plus. Includes a 4-way stretch, incontinent-resistant cover with non-skid bottom. Extra covers available.
