

Sanosphere™

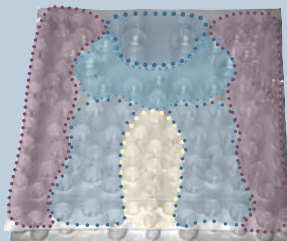

Sanosphere™ is a revolutionary technology that performs like air or gel cushions with no maintenance.

Sanosphere's dual hemispheres compress under an individual's weight and distribute pressure evenly throughout the seating area. Hemisphere diameters are different sizes to properly support and envelop the coccyx and ischial tuberosity regions, decreasing pressure to those areas most susceptible to pressure ulcers.

Sanosphere™ technology provides high-performance pressure redistribution with no maintenance required.

Sanosphere™ Hemi-Air Zones

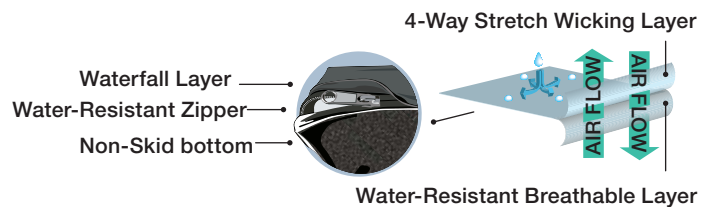

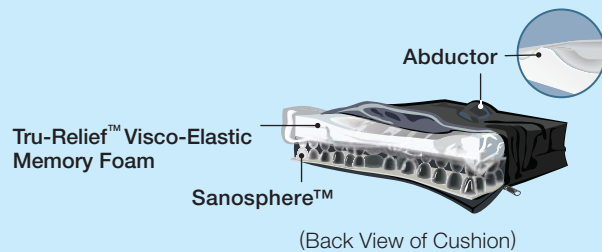

- Coccyx Flotation Zone
- Ischial Flotation Zone
- Lateral Stability Zone
- Leg Stability Zone
- Central Stability Zone

Elite Contour Plus Wheelchair Cushion

Product Description

HCPC E2607

The Elite Contour Plus cushion utilizes Sanosphere™ Technology (combination of Tru-Relief™ and Skydex™), that envelops bony prominences, providing ultimate comfort and pressure redistribution. The Sanosphere Technology calculates areas needing greater envelopment and stability and floats these areas using Hemi-Air Zones. The deep contour and slight wedge in the Elite Contour Plus' top layer is designed to encourage proper pelvic alignment and help prevent the pelvis from sacral sliding. This cushion is designed for individuals with or at high risk for skin breakdown up to stage IV. Includes a 4-way stretch, incontinent-resistant cover with non-skid bottom. Extra covers available.
